The objective and purpose of the North Orange County Gem and Mineral Society is to disseminate knowledge of mineralogy and the earth sciences and to encourage study in these subjects through means of: the presentation of public exhibitions, lectures, slide programs; field trips for explorations, study and collection of specimens; the preparation, publication and distribution of articles and studies pertaining to mineralogy and the earth sciences; the promotion of scientific research in these fields; the encouragement of interest among young people and the fostering of classes in mineralogy and lapidary arts; and all other means which are appropriate to the accomplishment of the primary objectives set forth.

*Annual Membership Dues: Individual, \$10; Family, \$15; Juniors, \$3.*  
*Visitors are always welcome at our regular meetings and field trips.*  
*The North Orange County Gem & Mineral Soc. does not yet have a Junior Division.*  
*Material contained in this newsletter may be used if credit is given.*

# NOC GEM & MINERAL SOCIETY NEWS

Vol, 22 No. 4

April 2003

## President's Message

by Don Warthen

Once again we open by saying good buy to Walt Abramson and Pat Maggs, two very close and dear friends and long time members. We'll always remember the countless field trips and great times around the campfire.

The show is fast approaching; we still have some things to take care of. We need help in the kitchen, with setup and security but for the most part things look good. I think we are going to have a good show this year followed by a field trip with Walt Wright the last Weekend of June and beading classes/workshop in July.

Our program this month, April 8th will be on Diamonds by Francis Lau Graduate Gemologist.

Mark your calendar! Next years show is set for June 19th and 20th of 2004. Also our regularly scheduled meeting for November is on Veterans Day and the Community Center is closed as a result our November meeting will be on November 18th 2003. (That's the third Tuesday of November)

## April Meeting

Date: April 8  
Time: 7:30 p.m.  
Place: La Habra Community Center  
101 W. La Habra Blvd.

## Refreshments

by Nancy Bird

Floyd Allen will bring the goodies for the April meeting. Thanks to Verl Stadel for bringing the goodies to the March meeting.

## NOC Club Activities

Cab Classes at Walt Messemer's — 7-10 p.m.  
every Wednesday Evening.  
Board Meeting — To be announced  
Field Trip — To be announced  
Deadline for NOC News — April 17.

## Programs

by Don Warthen

Our guest speaker for the month of April will be Graduate Gemologist Francis Lau. He will be speaking on the Essentials of buying diamonds wisely.

Francis is a graduate of GIA and is a member of the Monterey Hills Gem and Mineral Club.

## Members in the News

HAPPY BIRTHDAY and have a wonderful day all of you who were born in April.

*Barbara Steed - April 6*  
*Trini Hermosillo - April 11*  
*Vicki Marks - April 17*  
*Frieda Pool - April 17*  
*Oscar Veloz - April 24*  
*Virginia Harvey - April 26*  
*Joan Abramson - April 27*  
*Dana Matula - April 29*

Your gemstone is Diamond.  
Your flower is Daisy or Sweet Pea

Thurs-Sat 10:00 to 6:00

Sunday 10:00 to 5:00

*Seaside GEM boree*

Seaside Park (formerly Ventura Fairgrounds)  
10 W Harbor Blvd. Ventura, CA 93001

## In Memoriam Walt Abramson

by Bill Burns,

*over fifty years of enjoying Walts' Friendship*

Walt passed away this morning (3/22/03). He had not been well for sometime, but gradually faded away the last two days. A Memorial Service will be (was) held.

March 29, 2003 at 11:00 am  
First Lutheran Church  
1410 Foothill Drive  
Vista, CA

### A Tribute to Walt Abramson -

Walt hails from Iron River, Michigan where his father was a shoemaker, and later worked in the Iron mines as a timber boss. Walt's some times talked about his school days where he learned to speak English. Walt froze his hands, when he was just six years of age, but do to a good doctor his hands were saved.

Walt completed his education in Michigan with a BA Degree from Northern Michigan University. He taught school in Brimely, Michigan near the Canadian Border. Here he enjoyed trout fishing and hunting.

During World War II Walt taught aircraft mechanics at Willow Run, where the B-24's were mass produced and Boeing Field in Seattle. He later moved to Los Angles to teach for Western Airlines. Then he returned to elmenatry teaching and taught in the Whittier area, San Francisco, Hemet, and Crestline.

When he was in Whittier, he took some trips to the desert, and fell in love with rock collecting. He took an Adult class in geology and met some rockhounds that were interested in starting a club, the Whittier Gem & Mineral Society.

Walt displaying Opals at the 1998 NOC Show.

He joined several clubs through his years as a rockhound - Hemet Rock Club, Orange Belt Mineral Society, Vista GMS, San Diego Lapidary Society, and North Ornage County Gem and Mineral Society. He was a honorary member of WGMS and NOCGMS.

He was a graduate of GIA. He had an interest in many phases of the hobby - cabochon making, faceting, silver smithing, opal polishing and mounting and petrified wood, but his greatest love was field trips.

Finding material in the field gave him the greatest of pleasure. He has rockhounded in almost every state, Canada, Alaska, Austrailia ( he and Joan spent two years in Austrailia), the Scandanadian Countries, etc. Walt shared his finds by displaying at shows and meetings.

Walt was survived by his wife, Joan, a son, John, and step-daughter, Kathy and many friends and fellow rockhounds.

---

## CFMS Field Trip to Afton Canyon

April 25-27, 2003

---

by Bob Fitzpatrick  
CFMS Field Trip Chair South

### Hello Everyone

I will be leading a field trip to the Afton Canyon area on April 25th, 26th & 27th where we will be collecting on the Northeast side of the Cady Mountains. This area affords many spectacular peaks and canyons containing an almost endless variety of cutting materials, such as all types of Agates, Jasper, Jaspagate, Rhombohedral Calcite Crystals, Saginite, Petrified Wood, Stalactites, Fluorite, Opalite and much more. The desert is beautiful this time of year and we will be in for quite a treat viewing all the wild flowers along the way.

To get there, take the I - 15 Freeway east past Barstow for 45 miles to Basin Road. Exit this off ramp to the right and go 1.3 miles to a fork in the road. Take the left road and go 3.8 more miles to the Rail Road tracks. The road from freeway to the camping site is OK for 2 - wheel drive cars, trailers & motorhomes. We will be camping just on other side of Rail Road tracks.

From the camping site to collecting area the road is sandy in some areas. Cars are not recommended, four wheel drive and pickup should be OK; it's about 1/2 hour drive from the camp to the collecting area.

Friday we will be setting up camp, this will be dry camping, no water, no picnic tables, no toilets, no firewood to be gathered and no fees. It can be warm during the day and cold at night. Bring food, water, warm clothes a camera and fire wood. If you need a motel or supplies they are available in Baker and Barstow. Saturday we will have a pot luck, so bring a dish to share and your own place setting. Each night after dark we will have a camp fire where we can all join together and have a good time roasting marshmallows, telling jokes or just talking about the good OLE times.

I should be arriving at campsite around midday on Friday. Saturday and Sunday we will be leaving the camp at 9:00 a.m. and drive to the collecting area. Come for the day or camp out with us for the weekend and have a great time. You must observe the AFMS code of ethics and sign a consent and assumption of risk waiver of liability form.

Hope to see you there.

For additional information Email me at  
RUROCKY2@aol.com

---

## NOC General Meeting March 11, 2003

---

by Nancy Bird

The meeting was called to order at 7:30 p.m. by President Don Warthen. We had 15 members and 3 guests.

Floyd Allen presented a program on knapping he bought in Quartzite. It was a great program.

The Federation report was about the upcoming show in June in Ventura.

The June Field trip after our show will be to Palos Verde. On May 22-25 (Memorial weekend) will be a Tri-Federation (Northwest, Rocky Mountain, and CFMS) field trip to Texas Springs, Nevada for pink limb casts. It will be a four day trip near Jackpot, Nevada

The Monterey Park Gem Society is having a Burmese Jade Program, a delicious Chinese buffet dinner, and a ballroom dance with a live band. The cost is \$6 with a limit of 250 people. The event will be on April 19, 2003, in Monterey Park, CA Francis Lau, G.G, GIA will be the speaker.

The GIA in Carlsbad on June 20 will present a lecture on pearls for \$10.

Izzy Burns gave a show report. We need to sell donation award tickets and distribute fliers. The dealers are all set.

On July 12 we will have a pearl seminar. It will cost \$6 per person, \$3 for members. If anyone wants to buy pearl beads, some of the money will go to our club.

Thanks to Verle for wonderful treats, next month Floyd Allen will bring the goodies.

### **Business meeting:**

The minutes were printed in the bulletin, and were approved as printed.

The meeting adjourned at 9:45 p.m.

---

On April 26 & 27 at the Fullerton Arboretum is the annual Green Scene--don't miss this if you are into plants and accessories--it's the largest plant sale in the west. The arboretum is on Associated Road and Yorba Linda Blvd.

---

## In Memoriam Pat Maggs

---

by Don Ogden

Pat passed away in March 2003. He had not been well for sometime. I spent several nights on guard duty at the show with Pat. We talked mostly about the P38s he worked on during WW2. He was always there when we set up for the show and at the La Habra Street Fair. He was a willing subject for my camera at all the events we did together.

I remember Pat selling at Stoddard Wells and teasing our dog Aggie (who had a love hate relationship with him) at quartzsite; and his encounters with his friend Mike Maneth.

Delores often acted as liaison between the club and the community center and Pat along with spending time as a library volunteer also promoted the club at that venue.

I placed Pat's picture on the original CFMS website Show page. It shows Pat at the entrance of our Show. You can see it at <http://www.cfmsinc.org>.

We will always miss him with the little Welcome guy.

## Protecting Privacy

Comments from AFMS newsletter 4/03

by Orville McArthur

I like to comment on the March 2003 NFMS Newsletter article "Protecting Privacy" submitted by Bill Patillo.

Although it is good to know information like this, the article may be providing the readers with a false sense of security. Your privacy may be in danger in other ways.

Many people are not aware of the fact that their private life can be tracked without their knowledge. According to Simon Davies, director of the human rights group Privacy International: "There has probably never been a time in history when so much information has been amassed on the population-at-large. Details of the average economically active adult in the developed world are located in around 400 major data bases - enough processed data to compile a formidable reference book for each person."

Law-enforcement agencies rely on modern surveillance techniques to monitor Internet, and E-mail messages, faxes, and digital phone calls. This is done through a global network of satellite receiver stations, a system known as ECHELON.

Even medical records are really no longer private. In the book *Database Nation- The death of Privacy in the 21st Century, Today*, "medical records have an expanded role-They are used by employers and insurance companies to decide who should be hired and insured. They are used by hospitals and religious organizations to solicit donations. Even marketers are buying up medical records in search of sales leads."

People who use the internet are especially vulnerable to uninvited scrutiny. Many users expect that just retrieving information or documents from sites are anonymous. Not so! It is possible for others to record many online activities, which can be used in various ways.

The service provided by Google is really nothing new. It is just quicker. Reverse directories have been available for years from the telephone companies for a fee. Also, Google is not the only one providing this service. For example Freeality.com lists a number of these. If you go to that site you will find a number of listings from which to choose.

So you have a phone number - who does it belong to? Utilize: IE-Mail & Reverse Lookup. There are five options in that category: IPhone Number.com, WhitePages.com, SMARTpages.com, ThinkDirect and Anywho. Enter the phone number, search and, usually, you will get a name and address. On using my own phone number, four out of the five gave me my address. Now all you have to do is go to Find People Search Engines.

There are a few: IPhone Number.com, White Pages.com, US Search "FIND ANYONE!", Anywho, ThinkDirect, ICQ, 411 Locate, Four11, WorldPages, WhoWhere.com and Yahoo. Pick anyone of them, or all just for the exercise, and plug in the name and address and some of them will give you an option for a map. Plugging in my address I checked these services and seven of them gave me a map.

There are MAPPING programs on a CD that you can buy. Just plug in the address, voila.

It should be clear that the information on how to have a telephone number removed from Google's search service through MapQuest will not eliminate the possibility of finding where a person lives.

So even if making the request through Google takes you off all mapping services, (which I doubt it does, since there are others) if someone wants to find you through your phone number, even if it is unlisted (for a fee), they can.

There is a saying that has been going around for a few years now - "you can run, but you can-not hide." If you have gone to the above mentioned site you no doubt noticed other ways to find people for a fee such as: Cell-Phone-Numbers "Reverse Cell Lookup. NO HIT - NO FEE; Cell Phone Directory." ; Cyber Detective. "Find Out Anything About Anybody."; and for a \$ 25 fee Net-Vestigator "The Most Complete Investigation Software Package Available Anywhere!" "Find Out Anything About Anybody" ...is a program which offers you access to same databases used by professional investigators. Some of the information you will be granted access to is difficult for even government agencies to find! It's safe and legal to use, and best for all, it can be done without anyone ever knowing!

Scary! I guess the best advice is, do not get anyone mad at you. If someone wants to find you, they can. Besides, as Bill Patillo noted, there is a positive side to the services.
