NOC GEM & MINERAL SOCIETY NEWS

Vol, 22 No. 5

May 2003

President's Message

by Don Warthen

It's almost show time and I have some good news. First we were first told that we could not get the banner up this year, also we were told that we could only get two-thirds of the Ballroom by 2 pm on Friday for setup and we would not get the remaining one-third of the room until 5 pm. That has all changed now, thanks to Ofelia's negotiating skills. We will now have the banner up from June 6th through June 23rd and we will also get the entire Ballroom at 2 pm on Friday for setup. We will need some volunteers to pickup the banner, make sure the date and location is correct and deliver it to the city.

We have also had some response from the letters we sent to local businesses through the Chamber of Commerce requesting donation awards.

We also have a busy schedule for the rest of the summer. We have a bus trip with Walt Wright planed for June 28th, a beading class scheduled for July 12th, and we will be teaching at the La Habra Day Camp again this year. We will teach two days, as we did last year but the city wants to setup a whole week planned around our classes, Ginny has volunteered to work with the City to help set this up.

Well, it looks like a busy summer, we should get a lot accomplished and I think we are going to have the best show ever.

How to Stay Young

Original source unknown, via CFMS Newsletter 5/03

Throw out nonessential numbers. This includes age, weight and height. Let the doctors worry about them. That is why you pay him/her.

Keep only cheerful friends. The grouches pull you down.

Keep learning. "An idle mind is the Devil's workshop."

Enjoy the simple things.

Laugh often, loud and long. Laugh until you gasp for breath.

Tears happen. Endure grief, move on. Be ALIVE while you are alive.

Surround yourself with what you love: family, pets, hobbies. Your home is your refuge.

Cherish your health: if good, preserve it, If unstable, improve it. If poor, get help.

Don't take guilt trips. Take a trip to the mall, the next county, or a foreign country.

Tell the people you love that you love them, at every opportunity.

And always remember, life is not measured by the number of breaths we take, but by the moments that take our breath away.

NOC Board Meeting - Show Meeting (bits and Pices) April 29, 2003

by Susan Hansen

The meeting was called to order at 7:11pm by president Don Warthen.

We have had some problems in contacting the speaker for the next meeting. It was suggested we have a video backup available.

The meeting was turned over to Izzie for Show Meeting.

Publicity reviewed, Jay Valle helped us at La Habra Days taking pictures about 75 children with our "Mascot" and printing them on the spot.

Loretta has volunteered to help in the kitchen and also for donation awards.

The faceted Aquamarine for 1st prize was shown. Al set it in an open framework to show off the stone. Iz has a chain to go with it, and a presentation box. She would like to put it in the club case at the CFMS show in Ventura.

Main exhibit at our show will be the replica of famous diamonds.

We would like to have a fossils of the world and gemstones maybe. Also we want to have a sort of memorial case dedicated to Pat Maggs, Walt Abramson & Zeke Wilder.

Larry (contact for cases) is retiring and will be on vacation, but the cases will be available and someone will deliver them. Members need to sign up for cases.

Angie has the tumbled stones from Clarence Pool.

Nancy Bird will help Joanne Abramson with the spinning wheel.

We need to check the electrical wattage available. Suggestion for case favors an Origami crystal shape.

Decided to buy a roll of the orange sheeting, the place we get it is going out of business.

New hours for the building—it now closes at 9 pm.

The meeting ended at 9 pm.

The Journey Began At Monticello

Lewis & Clark Bicentennial Event January 14-16, 2003

By Izzie Burns
via AFMS Newsletter - April, 2003

Bill Burns, Brenda Hankins and I journey to Monticello in mid-January for the kick-off event of the Lewis & Clark Bicentennial. What an affair it was! There were many interesting programs - Conversations on Jefferson and Lewis and Clark Babies, Bears, & Bullets, Stories From The Trial,; What's Lost, What's Left- Protecting the Land Explored...; Cooking with Lewis & Clark; Clay Jenkins in An Evening with Jefferson and Lewis (a marvelous program), Makoche- Discovery through Music (part of an Opera to be presented later by the Missouri Univ.); Indian dances and interpretations; USGS, Musical Programs, Drum and bugle corps; etc. The highlight was the Commencement of the National Lewis and Clark Bicentennial on the lawn at Monticello in temperatures of about 20 degrees.

There were many more sites to see, book signings, cocktail parties, even one to honor Gail Norton. She represented President Bush and accepted a Indian blanket for him with a cowboy hat on it and given to show that the Indians and cowboys are now friends. There were many memorable presentations given.

In my view, the greatest presenters and authors of Lewis and Clark Expedition material were James Ronda, Univ. of Tulsa; Gary Moulton, a historical Editor who did the thirteen volume, "Definitive Journals of Lewis and Clark" which the AFMS committee and fossils that the Corp saw; Dayton Duncan and Ken Burns, Co-authors of the Documentary, Lewis and Clark. The Journey of the Corp of Discovery, and of course Clayton Jenkins. It seemed to me that every phase of the journey was covered even

to a book that told Seaman, Lewis dog's story. I would I recommend that for elementary school children. There were several rooms at Newton Hall on the University of Virginia, as well as, their book store with books to sell, and booths to advertise the following Signature Events --

For more information on these events contact event organizers or see the National Council of the Lewis and Clark Bicentennial's website <www.lewisandclark200.org>.

Even though the registration fee for this event was \$200.00 per person, the weather was miserable, two snow storms and temperatures of 9 degrees in a place where you were forced to walk in the snow to meetings as you could not park on the Virginia Univ. Campus. Bill and I felt it was worth it, even if The Daily Progress of Charlottesville, Virginia did report that "Bill Burns of Monterey Park, CA did not like the white stuff."

We were so busy that we were unable to get together with Brenda to really have time to discuss the booklet which the AFMS Lewis & Clark Committee is preparing, but we shall "persevere on" just as Lewis and Clark and their Corp did.

The Happy Rockhound

By Joan Abramson

We cannot take our riches when we go-
The gems we prized so highly stay behind,
The rocks we dug with patience here below,
The crystals that we labored so to find.

You shared them for a little while, Lord,
And placed them for safe keeping in these hands,
Abundantly you gave of bounty stored,
Beauty ever-flowing from your hands.

And now one comes to you who loved these
stones

And always, as he worked, gave you praise,
Knowing that these treasures were but loans
To make complete his happy rockhound days.

On earth he knew your constant, guiding love
And felt you'd honored him when he could see
The glories here reflecting those above
Where man's once tethered spirit is set free.

Past infinite horizons let him roam
He was not meant to lie at quiet rest.
We miss him here, but you have called him home,
A man who reached the heights and found the best.
