NOC GEM & MINERAL SOCIETY NEWS

Vol, 22 No. 10

November 2003

President's Message

by Don Warthen

It has been a busy year so far, we held classes at the La Habra Day Camp we also moved the show to June and to the Community Center and had the best show ever, then we held a pearl seminar and it was a complete sellout, we have had some great programs this year and were not done yet and we have had several fine people join the club.

At our November meeting we will be having the auction (a noisy and a silent auction). Remember that this meeting is on third Tuesday Nov. 18th. Don't forget to bring along some goodies for the auction. Then we will be going to Lavic Siding over Thanksgiving come and join us, if you can't make it for the weekend then come on out for the day.

This year we will be having our Christmas Party at the Community Center on our regular meeting night of Dec. 9th. Bring an unwrapped toy to donate to the cities children.

On January 10th we will be conducting the youth program at Hacienda Heights once again. We will need some volunteers and cabs.

We have already started working on next years show, there are some field trips in the works and we are lining up some great programs. We want to here from you. What would you like to see in the way of field trips, programs, the show or what other ideas do you have? Let us hear from you.

See you at the meeting.

November Meeting

Date: November 18 ** (Nov 11 is a Holiday and the Community Center will not be open, so the date wa changed.)
Time: 7:30 p.m.
Place: La Habra Community Center
101 W. La Habra Blvd.

NOC Club Activities

Cab Classes at Walt Messemer's — 7-10 p.m.
every Wednesday Evening.

Board Meeting — To be announced

Field Trip — To be announced

Deadline for NOC News — Nov 17.

Annual Christmas Dinner - Dec. 9, 2003

La Habra Commubity Center
101 W. La Habra Blvd.

Autonetics club members & Spouses are invited

Annual Youth Science Event — Sat. Jan. 10, 2004
10 a.m. to 1p.m.

Wedgeworth Elementary School, Hacienda Hts.
(Details will be Dec. NOC News)

Programs

The November meeting presents you multiple reasons to attend. Elect your 2004 officers. Bid on bargains at the now famous NOC auction.

Members should bring rocks, finished products, fossils, etc. to donate for the auction sale. Bring money to take things home.

Members in the News

HAPPY BIRTHDAY and have a wonderful day all of you who were born in **November**

Jane Livezey - November 11

Jerry Grafton - November 19

Your gemstone is Topaz

Your flower is Chysanthemum

Refreshments

Don and Jane Livezey will bring the goodies for the November meeting. Thanks to Jerry and Jinney Grafton for bringing the goodies to the October meeting.

Shows and Events

November 15-16, 2003, Palmdale, CA

Christmas Party/ Installation of Officers

By Don Warthen

We will be celebrating the Christmas session this year on December 9th at the Community Center at about 7:00 p.m. We will be located at the East end of the Main Ball Room.

Nomination's committee report:

1st VP (finish out 1 year term) - Isabella Burns

2nd VP - Pat Felix

Treasurer - Don Livezey

Directors - Angie Harwood

- Nancy Bird

- Bill Burns

Earth Science

By Cal Clason

Another successful two week sojourn at Camp Paradise, with approximately 120 very dedicated participants. Learning new skills, refreshing acquired ones, and producing a beautiful array of finished products. As Wayne Mills once described them "Over Achievers". I would have to agree with his comment. We, as usual, have the Camp reserved for the two weeks immediately following Labor Day for those of you who need to make long range plans.

April 11-18, 2004 are the dates for Zzyzx and again **(SOLD OUT)** I would recommend early reservations to ensure availability of openings. As in the past we will limit attendance to 60 people. Most of the planning is done so the staff is now engaged in keeping it all together. We will again have soft stone sculpture, Lapidary classes, wire art, bead stringing and the ever popular silver fabrication class; and an array of Field Trips to some prime collecting areas. Sites that have been productive in the past may be revisited and new sites investigated. Francis Pedneau will again lead all the Field Trips. The Desert Studies Center (Zzyzx) is a part of the Park System, under the Bureau of Land Management and operated by a Consortium of State Universities. So we have many rules and regulations to adhere to, the main ones being food storage and preparation, **NO PETS ALLOWED**, and No Collecting within the preserve.

Our endeavor to start a **new Seminar at Big Pine** is progressing with the help and input of many people, the initial budget indicates a fee of \$200.00 per person. The dates are **August 1-8, 2004**. The committee has recommended that this Seminar emphasize areas that would be of interest to and performable by **children ages 8 - 18**. With areas enjoyable by Adults, in that we will require adult supervision when classes are not in session; and have hopes that the adults will volunteer to assist the instructors during class. Some of the things we contemplate offering are: Lapidary, basic wire art, soft stone sculpture, bead stringing and baroque jewelry making, constructing rock critters, and painting rocks with acrylic paints. The preliminary applications should be available in December 2003

From Your Insurance Chair Good News - Bad News

By Fred Ott, Insurance Chairperson

The Good news is that the Federation has been able to obtain a renewal insurance policy from Chubb Insurance, covering each of the member societies, for the policy period 10-16-03 through 10-16-04. The bad news is that the cost of coverage is: a) higher than last year and b) the policy does not automatically provide liability coverage for certain events (such as gem shows) without an additional fee (ranging from approximately \$80.00 to over \$400.00, depending on several factors).

As I've mentioned before, it's almost impossible to obtain quotes from other carriers (although we've tried very diligently); in the past five years alone, claims filed by clubs within our Federation have cost the insurance companies almost \$250,000.00 in losses - not a "track record" that would motivate "other" insurance companies to give us lower rates than we are currently paying.

I will be mailing invoices to each society that has purchased optional premises liability and/or property coverages through Chubb Insurance, as well as invoices to those societies who have returned the completed Renewal Questionnaire and for whom gem show liability insurance is needed. The "per member" cost of insurance for Comprehensive General Liability Insurance (provided by the Chubb policy) will be included in the amount determined by the Federation's Board of Directors at the November meeting for payment by each society in January as part of the annual dues payment.

I will provide a more thorough explanation of the insurance program at the November Directors meeting in Fresno. Hope to see you there!

P.S. It's now more important than ever that your club address Insurance-related activities *well in advance* of the scheduled date(s). Last-minute requests for certificates of insurance and additional insured endorsements may not be processed in time for your event.

NOC General Meeting October 14, 2003

by Susan Hansen

The meeting was called to order at 7:32 p.m. by President Don Warthen.

Oscar Veloz led the flag salute.

Don announced that Ofelia has been volunteered to be Show Chairman for 2004, Show dates June 19th & 20th. Hometown buffet has already said they will donate dinners again.

Nominating Committee Report-the committee met Oct. 2nd and prepared the following slate:

1st VP – Izzie Burns

2nd VP – Pat F.

Treasurer-Don Livezey.

Directors: Angie Harwood; Nancy Byrd; Bill Burns.

Nominations were opened to the floor. closed with no additional nominations. The slate will be published in the bulletin, election in November. President Don, Secretary Susan, have 1 more year in 2 year terms.

Christmas Party – installations will be held at the party. We have the room for 2nd Tuesday for our meeting, we can have the larger hall and the kitchen here at the Community Center. They will set up tables, we need decorations and a caterer. Izzie can get a caterer, Loretta volunteered to do the table decorations.

Field Trips – Geol trip still pending. Trip Thanksgiving weekend to Lavic Siding. There is a show in Barstow, Iz and Bill will be putting a case in so will have to leave Sunday. The CFMS field trip to Basin Road/Afton Cyn is this coming weekend. Info in the Bulletin. Map available. After the rain, want to dig in the wash and under the sand to see what washed out. Possible Agate, Jasper, Amethyst, Fluorite. It was suggested we have a committee to plan/scout field trips. Don W., Bill B., Oscar V, Don R.

Discussion of plans for Geol trip, Can we do two-1 to beach and fossils; 1 to Saddleback Mts. areas. One by car/CBs, one by bus.

This weekend is also the Whittier show at the Whittier Community Center.

Chalmer Steed said he had a catalog of field trips that he gave to the club several years ago, does anyone know where it is? It was in a red notebook. We should keep it up, and have available for members.

Program – Don introduced Tony Fender of CalTech, who introduced the Speaker, Will Heltsley, who presented a program on “Cueva de Villa Luz” an unusual cave in the Mexican Rain Forest. He was with a group trying to analyze the cave and track the source.

Refreshments provided by Ginny and Jerry Grafton – cake for Susan’s birthday. Happy Birthday was sung.

Jane announced 24 members, “guests” Jonas & Harold. Sandy & Tony Fender.

Ofelia conducted the drawings. Don W. presented two white elephant ‘prizes’.

The minutes were in the Bulletin and were approved as printed.

Treasurer Don L. doesn’t have report-Don W. had the checkbook in Don L’s absence.

Federation Report by Loretta-they are looking for a Federation Secretary. Next month is the business meeting in Fresno instead of Visalia this year. Zzyzx is filled/closed. There will be a third camp at Big Pine next year in August. for youth 8-18 must be accompanied by adults.

Education- Ginny reports we will have another youth class Jan 10th, (2nd Tues.) will need help that day, also make up cab blanks for the kids to finish. Wire wrap class is in planning stage, we would like to have a workshop/class every quarter.

November meeting will be 3rd Tuesday due to the Holiday. The meeting will be an auction.

Nancy announced that this next weekend is also the “Arborfest” at the Fullerton Arboretum, Cactus show/sale and “bug fair” at same time, behind CSU Fullerton.

The meeting adjourned at 9:27 p.m.

Safety - Home Heating

By Chuck McKie, CFMS Safety Chairman - 2003

Winter is coming and we need to take heed of the dangers this entail, because I want you all to be hale and hearty for the holiday season ahead of us and for you to be healthy and safe for our field trips next year. Here are some tips from the American Red Cross.

Inspect Fireplaces -

Have your chimney inspected by a professional prior to the start of every heating season. Creosote, a chemical substance that forms when wood burns, builds up in chimneys and can cause a chimney fire if the chimney is not properly cleaned. Always protect your family and home by using a sturdy screen when burning fires. Remember to burn only wood - never burn paper or pine boughs, which can float out of the chimney and ignite a neighboring home. Never use flammable liquids in a fireplace. If you are purchasing a factory-built fireplace, select one listed by a testing laboratory, and have it installed according to local codes.

Watch Your Wood Stoves.

Be sure your wood or coal stove bears the label of a recognized testing laboratory and meets local fire codes. Follow the manufacturers' recommendations for proper use and maintenance. Chimney connections and chimney flues should be inspected at the beginning of each heating season and cleaned if necessary.

Follow the same safety rules for wood stoves as you would for space heaters. Burn only wood, and be sure the wood stove is placed on an approved stove board to protect the floor from heat and hot coals. Be sure to check with your local fire department and check the local codes before having your wood stove installed.

Be Cautious With Portable and Space Heaters.

Place space heaters at least three feet away from anything combustible, including wallpaper, bedding, clothing, pets, and people. Never leave space heaters operating when you are not in the room or when you go to bed. Don't leave children or pets unattended with space heaters and be sure everyone knows that drying wet mittens or other clothing over space heaters is a fire hazard.

Cook with Care.

When cooking, do not wear loose fitting clothing, which can be ignited by hot burners. Always turn pot handles in. Don't store items on the stove top, they could catch fire. Keep kitchen appliances clean and in good condition, and turn them off after use. Don't overload electrical outlets and don't use appliances with frayed or cracked wires.

Prepare a Winter Storm Plan.

Have extra blankets on hand, and ensure that each member of your household has a warm coat, gloves or mittens, hat and water-resistant boots. Stay tuned for storm warnings by listening to NOAA Weather Radio and your local radio and television stations for up-dated storm information.

Are Our Dues Enough

By Don Ogden

Dues per year:

\$03.00 - Junior

\$10.00 - Individual

\$15.00 - Family

Some Expenses per Year:

\$12.00 - Newsletter paper copy

\$00.00 - E-mail copy

\$06.00 - CFMS dues and insurance (cost **per member** including **honorary** members)

Think about it!

Which Gems Are Of Organic Origin?

By Patricia Roebuck

Pearl, Coral, Amber and Jet are the four organic gems. Although they contain calcium carbonate, a mineral substance, pearls are the product of certain mullusks whose secretions allay the discomfort of an irritation caused by disease, a parasite, or a foreign particle. The result is the "Queen of Gems" formed inside the protective mantle that surrounds the soft parts of the animal's body, within the shell.

Coral is the accumulated skeletal material of tiny marine animals called polyps, which live in branching colonies. Extracting calcium carbonate from the water, they deposit it in their tissues and build their framework of hollow tubes, which remain after their death.

Whereas pearl and coral are of animal origin, Amber and Jet are derived from plants. Amber is the fossil resin of ancient coniferous trees. These trees flourished during the Oligocene Epoch of the Tertiary Period - nearly 40 million years ago, and were species of pine (Pines Succinifer). Most properly speaking, amber is a fossil resin containing Succinic acid. Hundreds of species of insects and other invertebrates of the Oligocene Age are found beautifully preserved in amber, caught in the sticky sap as it dripped down the bark of trees.

Jet is a compact black variety of lignite coal. Lignite is the lowest rank of coal, having been least changed. The best quality of Jet is velvety black. All coal has a plant ancestry, having formed from the remains of ancient vegetation. During many centuries vegetation thrived and died. Progressive changes of heat and pressure carried these plants through peat, then to lignite, which we know as jet. Jet was most popular during the Victorian Era and was mainly used as mourning jewelry.

The above information was taken from "1001 Questions Answered About the Mineral Kingdom": by Richard M. Pearl and "Precious Stones" by Bauer. -via The Rollin' Rock, 10/03

All American Awards Program

By Dot Beachler, Chair

A gentle reminder to all clubs:

Although summer is past and fall is here, don't fall down on preparations to enter your club in the All American Club Award program.

Entry forms are available through the CFMS website (cfmsinc.org) or by snail mail from me (310) 325-3139.

Submission deadline is February 28, 2004

Irritant

By Jean Chisholm in - "Together" Magazine, via The - "Pegmatite ", 10/03

When Oysters are annoyed by grit,
They lift their lids a little bit,
Admit the grit, then calmly sit
And start to make a pearl of it.
This seems to me quite ample proof
It pays sometimes to raise the roof!

Our Annual CFMS Show

*By Elizabeth Provost,
member of Mother Lode Mineral Society*

Our annual CFMS show
is coming soon - so you should go!
There's rocks and gems and minerals too.
bright jewelry, prizes, all for you.
Three days in May, 2004
In Mariposa, we'll have more
Than you could ever hope to see.
Y'all come, enjoy the revelry
